

Fuss & Major in:

# Safari Shakedown

What is your current project idea?

- To make a new game in the style of an 80's Arcade Cabinet Machine

Why are you interested in it?

- I am a big fan of old games and pixel art. I want to use their aesthetic to tell funny stories akin to Looney Tunes, Tom & Jerry, and Woody Woodpecker while having it in graphics that remind people of old games like Donkey Kong, Sonic, Pac-Man, Bubble Bobble etc.
- Basically, what if cartoon shorts were games you can play?

What zone/medium is it in (game, installation, etc.)?

- Game Design + Physical Computing

Where do you think it's headed?

- I see it becoming first a small game that will lead into a workable custom controller to go with it and maybe even a custom made website to host it.
- I can see it being my debut way of showcasing one of the styles of entertainment I can offer.

A small monkey, Fuss, wants all the food that black bear, Major, is hoarding on top of a tree. It is trying to find ways to knock the bear out of the tree when coincidentally, drones carrying packages over the area begin falling out the sky due to low service. This gives the monkey a mischievous idea.....

- a. Donkey Kong 3
- b. Chimp Chomp
- c. Donut Dodo
- d. Popeye

What are some inspirational elements (see below for more detail)

- Donkey Kong / Donkey Kong 3
- Pac-Man / Mappy
- Popeye
- BurgerTime
- Chimp Chomp from Fanboy & Chum Chum
- Donut Dodo
- Looney Tunes
- Tom & Jerry

- Zig & Sharko
- Ed Edd n' Eddy
- Spongebob Squarepants
- 80's + 90's Classic Games
- Rubberhose Cartoons
- Early 2000's Cartoons
- Slapstick Humor

What feedback would be most useful to you right now?

- Knowing the most and least I can do for this project to qualify for a culmination project
- Knowing how much time I have
- Learning how to properly space time to work on it

Prepare inspirational materials

These can be: links, images, video clips, audio, articles, etc.

Sound

- Donkey Kong
- Chimp Chomp
- Ed Edd n' Eddy

Gameplay

- Donkey Kong
- Chimp Chomp
- Dodo Donut

Humor

- Looney Tunes: Type of Comedy (ACME)
- Zig & Sharko: Level of absurdity
- Memes: Rotscopping Game Over Screens

They should reflect tone, subject matter, aesthetic, or technical inspiration

Prepare to share as part of your presentation (so they can be one of your slides)

Think about how you might categorize or tag these later in Zotero.

Bring all links or ways to locate to class in an informal list

We will learn how to add these to Zotero (with tags & collections) in class
